

17th June 2020

Dear Residents

We hope you are all comfortable and coping well in these uncertain times.

With easing of the country's lockdown to level 3, we are finding that the spread of coronavirus is increasing rapidly and that there are reports of many more infections in our community. It would seem that people are under the mistaken impression that at this level they are safer than before, when in fact the opposite is true.

Now is the time for us to increase our vigilance with regard to all the safety protocols that have been put into place by Government and by the Management in our residential facilities. We are asking all residents to adhere to the following precautions:

1. Wear masks whenever you leave your rooms
2. Practice social distancing with care, which entails:
 - a. Not touching each other
 - b. Keeping a distance of 1.5 meters between people at all times
 - c. Not touching your faces
 - d. Not touching surfaces as much as possible
 - e. Washing your hands with soap regularly for at least 20 seconds each time, or sanitising your hands regularly

If any of you do not have face-masks please advise our care staff and they arrange that masks are provided for you.

Rather than relax, it is time to be diligent with the basic rules of infection-control.

Please be careful and stay well.

Best wishes
